Profile

End-of-studies Internship (6 months) — Data/AI & Cloud

Available Feb 2026 | Grenoble, France

- Engineering student at **Grenoble INP–Ensimag** focused on **Data Engineering, Data Science** and **Cloud**. Builds data pipelines, automates workflows, and turns data into **actionable insights**. Curious, adaptable, and a **fast learner**.

Education

Grenoble INP – Ensimag

Engineering Degree in Computer Science and Applied Mathematics (AI/Data)

Sep 2025 – Sep 2027

Grenoble, France

National Institute of Posts and Telecommunications (INPT)

Software & Data Engineering (Distributed Systems, Cloud, Data Pipelines)

Sep 2023 – Sep 2025

Rabat, Morocco

Lycée Mohammed VI d'Excellence

Preparatory Classes (PSI), Top 1% at National Competitive Exam (CNC)

2021 – 2023

Ben Guerir, Morocco

Skills

ETL/BI & Data Modeling: Talend, Power BI, Kimball/star schemas, data tests, data lineage.

Cloud & DevOps: AWS, GCP, Docker, kubernetes, Terraform, Jenkins/GitLab CI, PostgreSQL.

Data Engineering: Python, SQL, Apache Spark, Airflow/dbt, Kafka, Parquet/Delta.

MLOps/AI: MLflow, Weights & Biases, Machine learning, DVC, Airflow/Prefect, KServe/Seldon, Evidently, Prometheus, Grafana.

Backend & Frontend: FastAPI, Django, React.

Methods: Agile SCRUM, CI/CD, data security, documentation, code reviews.

Certifications: AWS Certified Cloud Practitioner, AWS Data Engineer (in progress), DataCamp Associate Data Engineer, HackerRank SQL (Advanced).

Experience

Centrale Danone

Jun 2025 – Aug 2025

Data Engineer **Python, Power BI, SQL Server, Azure, ETL, Data governance, Scrum** — Casablanca, Morocco

- Build ERP–Power BI pipelines, marts; enforce governance.
- Standardize business KPIs for consistent reporting.
- Ensure data quality, history, and documentation.

2Ppeerfect

Jun 2024 – Jul 2024

Data Engineer **Python, Spark, Kafka, Docker, Vector DB, LLM, LangChain, RAG, Scrum** — Rabat, Morocco

- Deliver RAG chatbot, ingestion, documentation.
- Students get accurate, self-serve answers.

Mentorness

Jan 2024 – May 2024

Data Analyst **Python, Power BI, PostgreSQL, Star Schema, Neo4j, Mongoddb** — Remote, India

- Clean, standardize datasets; deduplicate records.
- Build Power BI ETL; configure workflows/mappings.
- Model stars; dashboards; dictionary; align KPIs.

Projects

[TacticalRAG](#) | AI Football Analysis (RAG)

Tools: FastAPI, Tailwind CSS, React, FAISS/Chroma, VectorDB, OpenAI API, Docker, SentenceTransformers, LangChain

[Stock Sentiment Analysis Dashboard](#) | NLP + Finance

Tech: Python, Streamlit, Anaconda, TensorFlow, NewsAPI, Docker, Git LFS, ETL Pipeline

[SQL Data Warehouse](#) | Medallion (Bronze/Silver/Gold)

Tech: SQL Server, Star Schema, System Design
